

ENVIRONMENTAL POLICY STATEMENT

This is the Environmental Policy statement of:

Joloda Hydraroll Limited, Joloda Conveyor Services and Joloda BV

Purpose

At Joloda Hydraroll Group we encourage respect for the environment and the adoption of an environmentally responsible attitude in the fulfilment of business objectives.

Policy Statement

The pursuit of this policy will require the Group to focus attention upon the following key principles:

- Compliance with all relevant Environmental legislation.
- Commitment to the protection of the environment, prevention of pollution and improvement in environmental performance.
- Promote awareness amongst employees of the importance of environmental issues.
- Conserve energy and water and manage their use efficiently.
- Implementation of waste minimisation programmes.
- Encourage the use of re-cycled materials where appropriate (By education and training).
- Provide the necessary information to enable employees/learners to operate the processes efficiently and in an appropriate environmental manner.
- Assess the environmental impact of new capital projects as part of the approval process. (The capital options will be ranked with respect to environmental impact and discussed).
- Maintain the appearance of the Group premises to high standards.
- Set reasonable environmental targets and monitor performance.
- Report significant environmental performance changes and improvements to employees
- Review and improve supply chain compliance. (Initially by making suppliers aware, by carrying out more audits.

Review

This Environmental Policy will be reviewed annually to ensure its continued relevance and effectiveness in line with changing legislative requirements and best practices.

Signed: 

(CEO) Chief Executive Officer
